SUMMARY

Aspiring data analyst pursuing a Bachelor of Computer Applications with hands-on experience in Python, SQL, Power BI, and Excel. I am currently pursuing a Bachelor of Computer Applications. Skilled in analysing complex datasets and transforming insights into compelling visualisations. Demonstrated ability to build machine learning models and conduct actionable data analysis through academic projects. Eager to leverage technical acumen to solve real-world business challenges in a dynamic organisation.

EDUCATION

Bachelor of Computer Applications   08/2023 - 05/2026
Saveetha College of Liberal Arts and Sciences   Chennai

12th - Commerce with Computer Science   04/2022 - 04/2023
Sri. R.M. Jain Vidhyashram   Thiruvallur

10th   04/2019 - 04/2020
Sri. R.M. Jain Vidhyashram

EXPERIENCE

Data Analytics Intern   05/2025 - 06/2025
Approtech R&D Solutions Pvt Ltd   Tambaram, India

Gained practical knowledge in Python, SQL, Power BI, and Excel through hands-on learning and project work.

Data Science Intern   07/2025 - 09/2025
Gradtwin   Chennai, India

Worked as a Data Science Intern, applying Python to implement and evaluate core machine learning algorithms. Performed data preprocessing, exploratory data analysis (EDA), and model training to solve real-world tasks.

SKILLS

Python

SQL

Microsoft Power BI

Microsoft Excel

Machine Learning

LANGUAGES

English	Proficient	●●●●○
Telugu	Native	●●●●●
Tamil	Advanced	●●●○○

PROJECTS

Researched a machine learning model to detect anomalies in online payment transactions

Created a website for Dessert Bites Shop utilizing Google Sites

Built an Instagram push notification feature integrating Firebase Cloud Messaging.

Implemented a house price prediction model using machine learning techniques

Developed an animal detection project using YOLO v8

Executed a Loan Approval Prediction Analysis model using ML techniques, with insights visualized in Power BI.
